

# Join QBE for a Summer Internship

Our 10-week summer program gives college students meaningful exposure to the insurance industry while they build essential professional skills through orientation, weekly Insurance 101 sessions, and engagement with senior leaders. It also serves as a future pipeline into our Next Gen Graduate Program, with top interns encouraged to apply at the end of their senior year of college. The paid internship offers opportunities across Actuary, Enterprise Risk Management, Data Science, Specialty, Legal, Claims, and Crop.

## Highlights of the QBE Internship program include:

- Internships available for insurance-specific roles in Actuary, Enterprise Risk Management, Data Science, Specialty, Legal, Claims, and Crop.
- Gain hands-on experience and classroom training into our business operations.
- Get exposure to a variety of insurance industry roles — careers in insurance have a lot to offer!
- Build relationships with fellow interns by participating on group projects.
- Build your professional network.
- For those who excel in the program, we welcome the opportunity to discuss full-time employment opportunities at QBE after graduation.
