### **DIRECTORS' STATEMENT**

For the financial year ended 31 December 2021

The directors present their statement to the member together with the audited financial statements of QBE Insurance (Singapore) Pte. Ltd. (the "Company") for the financial year ended 31 December 2021.

In the opinion of the directors,

- (a) the financial statements as set out on pages 6 to 56 are drawn up so as to give a true and fair view of the financial position of the Company as at 31 December 2021 and the financial performance, changes in equity and cash flows of the Company for the financial year covered by the financial statements; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

### **Directors**

The directors in office at the date of this statement are as follows:

Ronak Akhil Shah Arunothayam A/P V Rajaratnam Jason Andrew Hammond Tay Siang Leng Michael William Gourlay

### Arrangements to enable directors to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

### Directors' interests in shares or debentures

According to the register of directors' shareholdings, none of the directors holding office at the end of the financial year had any interest in the shares or debentures of the Company or its related corporations, except as follows:

### **Share options**

No options were granted during the financial year to subscribe for unissued shares of the Company.

No shares have been issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company.

There were no unissued shares of the Company under option at the end of the financial year.

### **Independent Auditor**

The independent auditor, PricewaterhouseCoopers LLP, has expressed its willingness to accept re-appointment.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF QBE INSURANCE (SINGAPORE) PTE. LTD.

For the financial year ended 31 December 2021

### Report on the Audit of the Financial Statements

### **Opinion**

In our opinion, the accompanying financial statements of QBE Insurance (Singapore) Pte. Ltd. (the "Company") are properly drawn up in accordance with the provisions of the Companies Act 1967 ("the Act") and Financial Reporting Standards in Singapore ("FRSs") so as to give a true and fair view of the financial position of the Company as at 31 December 2021 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

### What we have audited

The financial statements of the Company comprise:

- the statement of comprehensive income for the year ended 31 December 2021;
- the balance sheet as at 31 December 2021;
- · the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, including a summary of significant accounting policies.

### **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF QBE INSURANCE (SINGAPORE) PTE. LTD.

For the financial year ended 31 December 2021

### Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF QBE INSURANCE (SINGAPORE) PTE. LTD.

For the financial year ended 31 December 2021

### Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

### 1. General information

The Company is incorporated and domiciled in Singapore. The address of the registered office is 1 Wallich Street, #35-01, Guoco Tower, Singapore 078881.

The Company is principally engaged in the underwriting of all classes of general insurance business. There has been no significant change in the nature of this activity during the financial year.

The financial statements are presented in Singapore dollars, which is the functional currency of the Company.

### 2. Significant accounting policies

### 2.1 Basis of preparation

These financial statements have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of these financial statements in conformity with FRS requires management to exercise its judgment in the process of applying the Company's accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where estimates and assumptions are significant to the financial statements are disclosed in Note 3.

### Interpretations and amendments to published standards effective in 2021

On 1 January 2021, the Company adopted the new or amended FRS and Interpretations to FRS ("INT FRS") that are mandatory for application for the financial year. Changes to the Company's accounting policies have been made as required, in accordance with the relevant transitional provisions in the respective FRS and INT FRS.

The adoption of these new or amended FRS and INT FRS did not result in substantial changes to the accounting policies of the Company and had no material effect on the amounts reported for the current period or prior financial years.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.2 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable from rendering of services in the ordinary course of the Company's activities, net of goods and services tax, rebates and discounts. Revenue is recognised as follows:

### (a) Premium income

Written premiums include premiums on contracts incepting during the financial year, irrespective of whether they relate in whole or in part to later financial years. Written premiums are disclosed gross of commissions to insurance companies and intermediaries.

The earned portion of written premiums is recognised as revenue proportionally over the period of coverage.

Treaty and facultative reinsurance inward premiums are recognised as written upon receipt of statements and closing placement slips respectively from cedants up to the time of closing of the books.

### (b) Commission income

Commission income is recognised as revenue on a basis that is consistent with the recognition of the costs incurred on the acquisition of underlying insurance contracts.

### (c) Interest income

Interest income is recognised using the effective interest method.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.3 Financial assets

### (a) Classification

The Company classifies its financial assets into loans and receivables and financial assets at fair value through profit or loss. The classification depends on the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition.

### (i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the balance sheet date, which are presented as non-current assets. Loans and receivables are presented as "cash and cash equivalents", "trade and other receivables" and "deposits".

### (ii) Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading, and those designated at fair value through profit or loss at inception. A financial asset is classified as held for trading if it is acquired principally for the purpose of selling in the short term. Financial assets designated as at fair value through profit or loss at inception are those that are managed and their performances are evaluated on a fair value basis, in accordance with a documented Company investment strategy. Assets in this category are presented as current assets if they are either held for trading or are expected to be realised within 12 months after the balance sheet date.

Management has designated all its financial assets as at fair value through profit or loss at inception. The designation of financial assets as at fair value through profit or loss at inception is irrevocable.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.3 <u>Financial assets</u> (continued)

### (b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date - the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

On disposal of a financial asset, the difference between the carrying amount and the net sale proceeds is recognised in profit or loss.

### (c) Initial measurement

Financial assets are initially recognised at fair value plus transaction costs except for financial assets at fair value through profit or loss, which are recognised at fair value. Transaction costs for financial assets at fair value through profit or loss are recognised immediately as expenses.

### (d) Subsequent measurement

Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Financial assets at fair value through profit or loss are subsequently carried at fair value.

Changes in the fair values of financial assets at fair value through profit or loss including the effects of currency translation, interest and dividends, are recognised in profit or loss when the changes arise, and are presented as investment income (net).

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.3 <u>Financial assets</u> (continued)

### (e) Impairment

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognises an allowance for impairment when such evidence exists.

### (i) Loans and receivables

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default or significant delay in payments are objective evidence that these financial assets are impaired.

The carrying amount of these assets is reduced through the use of an impairment allowance account which is calculated as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in profit or loss.

The allowance for impairment loss account is reduced through profit or loss in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost, had no impairment been recognised in prior periods.

### 2.4 Derivative financial instruments

A derivative financial instrument for which no hedge accounting is applied is initially recognised at its fair value on the date the contract is entered into and is subsequently carried at its fair value. Changes in its fair value are recognised in profit or loss. The Company does not apply hedge accounting for its derivative financial instruments.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.5 <u>Currency translation</u>

The financial statements are presented in Singapore Dollar, which is the functional currency of the Company.

Transactions in a currency other than the Singapore Dollar ("foreign currency") are translated into Singapore Dollar using the exchange rates at the dates of the transactions. Currency exchange differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the balance sheet date are recognised in profit or loss.

### 2.6 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a tax authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of an asset or liability that affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax is measured at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Current and deferred income taxes are recognised as income or expense in profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity.

The Company accounts for investment tax credits (for example, productivity and innovative credit) similar to accounting for other tax credits where deferred tax asset is recognised for unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax credit can be utilised.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.7 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand and at bank, and deposits held at call with financial institutions which are subject to an insignificant change in value.

### 2.8 Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business, if longer). Otherwise they are presented as non-current liabilities.

Trade and other payables are initially recognised at their fair value, and subsequently carried at amortised cost, using the effective interest method.

### 2.9 Property, plant and equipment

Property, plant and equipment are recognised at cost less accumulated depreciation and accumulated impairment losses (see Note 2.12).

The cost of property, plant and equipment initially recognised includes its purchase price and any costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

Depreciation is calculated using the straight-line method to allocate depreciable amounts over their estimated useful lives. The estimated useful lives are as follows:

	<u>Userui lives</u>
Computers	3 years
Furniture and fittings	5 years
Office equipment	5 years
Motor vehicles	5 years

Leasehold improvement follows useful life of leasehold office shorter of lease term or 5 years

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.9 <u>Property, plant and equipment</u> (continued)

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed and adjusted as appropriate, at each balance sheet date. The effects of any revision are recognised in profit or loss when the changes arise.

### 2.10 Leases

### Right-of-use assets

The Company recognised a right-of-use asset and lease liability at the date which the underlying asset is available for use. Right-of-use assets are measured at cost which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement date and lease incentive received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Right-of-use assets are presented within "Property, plant and equipment".

### Lease liabilities

Lease liability is measured at amortised cost using the effective interest method. Lease liability shall be remeasured when:

- There is a change in future lease payments arising from changes in an index or rate:
- There is a change in the Company's assessment of whether it will exercise an extension option; or
- There are modifications in the scope or the consideration of the lease that was not part of the original term.

Lease liability is remeasured with a corresponding adjustment to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.11 <u>Intangible assets</u>

### (a) Software development cost

Software that are internally developed are reported at cost less accumulated amortisation and accumulated impairment losses.

Software development cost is amortised on a straight-line basis over its estimated useful life using the straight-line method over 3 years. The estimated useful life and amortisation are reviewed at the end of each annual reporting period, with the effect of any changes in estimates being accounted for on a prospective basis.

### (b) Club membership

Club membership acquired is measured initially at cost less any accumulated impairment losses.

### 2.12 Impairment of non-financial assets

Property, plant and equipment and other non-financial assets are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired. Impairment assessment for club membership is performed annually as it has an indefinite useful life.

For the purpose of impairment testing of assets, recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs.

If the recoverable amount of the asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An impairment loss for an asset is reversed only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of accumulated depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset, is recognised in profit or loss.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.13 Insurance contracts

Insurance contracts are those contracts that transfer significant insurance risk. As a general guideline, the Company defines significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event that are significant when compared to the premiums collected for such contracts.

For all these contracts, premiums are recognised as revenue (earned premiums) over the period of coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the balance sheet date is reported as unearned premium reserves. Premiums are shown before deduction of commission.

Claims and loss adjustment expenses are charged to profit or loss as incurred based on the estimated liability for compensation owed to contract holders. They include direct and indirect claims settlement costs and arise from events that have occurred up to the balance sheet date inclusive of provisions for incurred but not reported claims. The Company discounts its liabilities for unpaid claims using applicable risk free discount rates.

### 2.14 Reinsurance contracts held

Contracts entered into by the Company with reinsurers under which the Company is compensated for losses on one or more insurance contracts issued by the Company where significant insurance risk is transferred are classified as reinsurance contracts held. Insurance contracts entered into by the Company under which the contract holder is another insurer (inwards reinsurance) are included with insurance contracts.

Contracts may be modified from time to time either by agreement between the parties or due to change in regulation. In the event that a contract is modified to clarify coverage, indemnity, or other terms relevant to the operation of the contract, any changes in the financial performance of the contract since inception will be applied prospectively, and be fully reflected in the financial period in which the contract modification was executed.

The benefits to which the Company is entitled under its reinsurance contracts held are recognised as reinsurer's share of insurance liabilities. These assets consist of short-term balances due from reinsurers, as well as longer-term receivables that are dependent on the expected claims and benefits arising from the related reinsured insurance contracts.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.14 Reinsurance contracts held (continued)

Amounts recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured insurance contracts and in accordance with the terms of each reinsurance contract. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised as an expense when due.

The Company assesses its reinsurance assets for impairment when there is objective evidence that the Company will not be able to collect all amounts due in accordance with the original terms of the contract, having regard to market data on the financial strength of each of the reinsurance companies. The amount of the allowance is recognised in profit or loss.

### 2.15 Insurance liabilities

Insurance liabilities comprise unearned premiums reserves and outstanding claims reserves.

### (a) Unearned premium reserves/deferred acquisition cost

An unearned premium reserve is made for the amount of premium not yet earned at the balance sheet date. Net unearned premium reserves are calculated using the 1/365<sup>th</sup> method based on the gross premiums written less return premiums and 25% method for marine cargo business.

Premium ceded to reinsurers by the Company in exchange for reinsurance protection is expensed in profit or loss in accordance with the reinsurance contract's expected pattern of incidence of risk. The deferred reinsurance premium asset is that portion of the reinsurance premium that the Company has not yet expensed in profit or loss as it represents reinsurance coverage to be received by the Company after the balance date.

Commission income and commission expense are deferred consistent with the earning of the related premium for that business. All other acquisition costs are recognised as expenses when incurred.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.15 <u>Insurance liabilities</u> (continued)

### (b) Outstanding claims reserves

Provision for claims is made for the estimated cost of claims notified but not settled at the date of the balance sheet, using the best information available at that time.

In addition, a provision is made for claims incurred but not reported ("IBNR") for all business written at the balance sheet date based on the past claims experience and statistics derived from prior trends (see Note 3).

The reserve for IBNR losses and loss expenses is established by management based on actuarially determined estimates of ultimate losses and loss expenses. Inherent in the estimate of ultimate losses and loss expenses are expected trends in claim severity and frequency and other factors which may vary significantly as claims are settled. Accordingly, ultimate losses and loss expenses may differ materially from the amounts recorded in the financial statements. These estimates are reviewed regularly and, as experience develops and new information becomes known, the reserves are adjusted as necessary. Such adjustments, if any, will be recorded in profit or loss in the period in which they become known.

The claims provisions are intended to provide a 75% level of assurance of sufficiency, and as such include a Provision for Adverse Deviation (PAD) beyond the estimated cost of claim including the required IBNR.

Insurance companies may elect to purchase reinsurance cover to manage their exposure to any one claim or series of claims. Reinsurance recoveries is the provision that bases on incurred claims to recover some claim from reinsurance.

### (c) Liability adequacy test

At each balance sheet date, a liability adequacy test is performed to ensure the adequacy of unearned premium liabilities. In performing the test, current best estimates of future contractual cash flows are used. Any deficiency is immediately charged to profit or loss.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 2. Significant accounting policies (continued)

### 2.16 Employee benefits compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

### (a) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Company pays fixed contributions into separate entities such as The Central Provident Fund on a mandatory, contractual or voluntary basis. The Company has no further payment obligations once the contributions have been paid.

### (b) Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

### 2.17 Government grants

Grants from the government are recognised as receivable at their fair value when there is reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

### 2.18 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 3. Critical accounting estimates, assumptions and judgments

Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates, assumptions and judgments in determining the reported insurance liabilities. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below.

### The ultimate liability arising from claims made under insurance contracts

The estimation of the ultimate liability arising from claims made under insurance contracts is the Company's most critical accounting estimate. There are several sources of uncertainty that need to be considered in the estimate of the liability that the Company will ultimately pay for such claims. Estimation of the ultimate liability arising from claims is done using conventional actuarial techniques.

The assumptions used by the Company, in determining its insurance liability are disclosed in Note 13(c).

The estimation of IBNR and IBNER is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims that have been reported to the Company but not yet paid, for which more information about the claims is generally available. The notification and settlement of claims relating to liability and other long-tail classes of business may not happen for many years after the event giving rise to the claim. As a consequence, liability and other long-tail classes typically display greater variability between initial estimates and final settlement due to delays in reporting claims and uncertainty in respect of court awards and future claims inflation. Claims in respect of property and other short-tail classes are typically reported and settled soon after the claim event, giving rise to more certainty.

Central estimates for each class of business are determined using a variety of estimation techniques, generally based on an analysis of historical experience and with reference to external benchmarks where relevant. The gross central estimate is discounted to present value using appropriate risk-free rates.

Central estimates are calculated gross of any reinsurance and other recoveries. A separate estimate is made of the amounts recoverable based on the gross central estimate.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 4. Management expenses

	2021 S\$'000	2020 S\$'000
Employee compensation (Note 5)	19,432	21,952
Consultant services	1,472	2,107

Government grants - Jobs Support Scheme	-	2,803
	2,341	5,440

Grant income of \$Nil (2020: \$2,802,945) was recognised during the financial year under the Jobs Support Scheme (the "JSS"). The JSS is a temporary scheme introduced in the Singapore Budget 2020 to help enterprises retain local employees. The scheme had been extended up to 2021 by the Government. Under the JSS, employers will receive cash grants in relation to the gross monthly wages of eligible employees.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 7. Income tax

### (a) Income tax expense

	2021 S\$'000	2020 S\$'000
Tax expense attributable to profit is made up of: Current income tax Deferred income tax (Note 17) Tax expense	106 496 602	1,206 (295) 911
<u>Current income tax</u> Current year Over provision in preceding financial year	397 (291) 106	1,206 - 1,206
<u>Deferred income tax</u> Origination and reversal of temporary difference (Note 17)	496 496	(295) (295)

The tax on loss before tax differs from the theoretical amount that would arise using the Singapore standard rate of income tax as follows:

	2021 S\$'000	2020 S\$'000
Profit before tax	2,927	6,238
Tax calculated at a tax rate of 17% (2020: 17%) Tax effect of: Income tax credit calculated at a lower rate of 10%	498	1,061
instead of at 17%	119	581
Expense not deductible for tax purpose	302	30
Income not subject to tax	-	(676)
Statutory stepped income exemption	(17)	(17)
Tax incentives	(9)	(68)
Over provision in preceding financial year	(291)	-
Income tax expense	602	911

The Company has been approved by Monetary Authority of Singapore "MAS" for Concessionary Rate of Tax for Insurance Business Development "IBD" awarded from 1 January 2021 to 31 December 2029 under Section 43C of the Singapore Income Tax Act. The Company enjoys 10% concessionary tax rate for the qualify income generated from all classes of business except Fire, Motor, Work injury compensation, Personal accident, Health insurance.

### NOTES TO THE FINANCIAL STATEMENTS

Government debt securities	242,360	259,669
Corporate bonds	10,044	10,155
	252,404	269,824

The maturity profile and interest rate risk exposure of financial assets, at fair value through profit or loss are disclosed in Note 19.

Financial assets, at fair value through profit or loss, at the balance sheet date are denominated in the following currencies:

	2021 S\$'000	2020 S\$'000
Singapore Dollar	200,653	236,474
United States Dollar	51,751	33,350
	252,404	269,824

### 12. Derivative financial instruments

The Company has a fair value foreign exchange hedge arrangement with QBE Strategic Capital Company Pty Ltd (QSCC), under which QSCC acts as counterparty for the purchase or sale of forward contracts covering the Company's net USD exposure. Derivative contracts are recognised at fair value on the date each contract is entered into, and are subsequently remeasured to their fair value at the end of each accounting period. The contracted notional principal amount of the derivative outstanding at balance sheet date is \$87,767,820 (2020: \$53,528,850) and matures in April 2022. The Company has not elected hedge accounting.

	2021 S\$'000	2020 S\$'000
Gross		
Insurance contracts:		
<ul> <li>unearned premium reserves</li> </ul>	121,243	112,245
- outstanding claims reserves	244,433	232,241
Total insurance liabilities - gross	365,676	344,486
Reinsurance Outwards Insurance contracts: - unearned premium reserves - outstanding claims reserves Total reinsurers' share of insurance liabilities	30,558 145,951 176,509	27,538 138,501 166,039
Net Insurance contracts: - unearned premium reserves - outstanding claims reserves	90,685 98,482	84,707 93,740
Total insurance liabilities - net	189,167	178,447

The estimated timing of the net cash outflows arising from the reinsurance assets and insurance liabilities are disclosed in Note 13(d).

### (a) Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable. The Company faces the possibility of incurring higher claims costs than expected owing to the nature of the claims, their frequency and severity and the risk of change in legal or economic conditions or behavioural patterns affecting pricing and conditions of insurance or reinsurance cover.

The Company seeks to minimise and manage these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling. The Company's underwriting policy supports the seeking of risks with adequate pricing that is commensurate with the risk profiles and claims experience.

The underwriting strategy attempts to ensure that there are appropriate risk criteria. There are underwriting policies setting the Company's risk appetite, risk management and control. Also in place are underwriting and claims authority limits. Where applicable, the Company has the right not to renew any policy, impose deductibles and reject payment of any fraudulent claim.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

### 13. Insurance liabilities and reinsurer's share of insurance liabilities (continued)

- (a) Insurance risk (continued)
  - (i) Loss reserves

Outstanding claims reserves include unpaid losses, loss adjustment expenses and estimates for ultimate reserves for IBNR.

The reserves represent estimates of future payments of reported and unreported claims for losses and related expenses with respect to insured events that have occurred. Reserving is a complex process dealing with uncertainty, requiring the use of informed estimates and judgements. Significant delays occur in the notification of claims and a substantial measure of experience and judgement is involved in assessing outstanding liabilities, the ultimate cost of which cannot be known with certainty as of the balance sheet date. The reserves for losses and loss adjustment expenses are determined on the basis of information currently available and assessed regularly by reference to both levels of business and actual claims development. The statistics are divided by class of business and arranged on an accident year basis. Estimates of ultimate outcome are assessed by accident year allowing for past experience, levels of business and known claims trends.

The establishment of an ultimate outcome for older accident years is more certain and IBNR is established mainly to allow for the adverse deterioration in the case of more recent years, and the most recent year in particular. However, it is inherent in the nature of the business written that the ultimate liabilities may vary as a result of subsequent developments.

IBNR allowance is established for the onshore and offshore fund as a whole. The IBNR allowance is reflecting this approach and is allocated to the respective funds on a consistent basis. Comfort should be taken from looking at the development of earlier accident years that adequate provisions have been established reflecting an allowance for adverse deviation.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 13. Insurance liabilities and reinsurer's share of insurance liabilities (continued)

# (a) Insurance risk (continued)

#### (ii) Reinsurance

The Company cedes insurance premiums and risks in a normal course of its business in order to limit the potential for single large loss or losses arising from a single event or longer exposures. Reinsurance does not, however, relieve the originating insurer of its liability. Reinsurance assets include balances due from reinsurance companies for paid and unpaid losses and loss adjustment expenses and ceded unearned premiums. Amounts recoverable from reinsurers are estimated in a manner consistent with the claims liability associated with the reinsured policy. Reinsurance is recorded gross in the balance sheet unless a right of offset exists.

#### (b) Concentration of insurance risk

The concentration of insurance risk before and after reinsurance by territory in relation to the type of insurance risk accepted by the Company is summarised below, with reference to the carrying amount of the premiums (gross and net of reinsurance) arising from insurance contracts:

	20	21	20	20
	Gross	Net	Gross	Net
	premium	premium	premium	premium
	written	written	written	written
	S\$'000	S\$'000	S\$'000	S\$'000
Property	14,290	5,427	14,255	6,610
Motor	6,006	2,487	7,674	5,451
Marine Cargo	12,928	9,906	11,865	7,943
Marine Hull	69,546	17,983	66,972	26,918
Work Injury				
Compensation	24,394	12,568	22,546	16,389
Health	15,923	7,761	17,726	10,005

Total	243,392	98,975	239,058	144,571

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 13. Insurance liabilities and reinsurer's share of insurance liabilities (continued)

# (c) Sensitivity analysis

The general insurance claim liabilities are sensitive to the key assumptions shown below. It has not been possible to quantify the sensitivity of certain assumptions, such as, legislative changes or uncertainty in the estimation process.

The analysis below is performed for reasonably possible movement in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities and profit before tax. The correlation of assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis. It should be noted that movements in these assumptions are non-linear.

2021	Change in assumptions	Impact on gross liabilities \$'000	Impact on net liabilities \$'000	Impact on profit before tax \$'000
Ultimate loss ratio	+5%	5,954	2,826	(2,826)
Discount rate Provision for adverse	+1%	(2,828)	(1,278)	1,278
deviation	+1%	2,174	888	(888)
2020				
Ultimate loss ratio	+5%	6,837	2,963	(2,963)
Discount rate	+1%	(2,576)	(1,290)	1,290
Provision for adverse deviation	+1%	2,088	853	(853)

	73,866	83,768

### 17. Deferred tax assets and liabilities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority. The following amounts, determined after appropriate offsetting, are shown in the balance sheet:

	2021 S\$'000	2020 S\$'000
Deferred tax liability as at 1 January	345	640
Credited to profit or loss (Note 7)	496	(295)
Deferred tax liability as at 31 December	841	345

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 17. Deferred tax assets and liabilities (continued)

The movements in deferred tax liabilities and assets during the financial year comprise the tax effects of the following:

	Beginning of financial	•	End of financial
	year S\$'000	Credited S\$'000	year S\$'000
2021 Recognised in profit or loss: Excess of capital allowance over depreciation	345	496	841
2020 Recognised in profit or loss: Excess of capital allowance over depreciation	640	(295)	345

Deferred income tax assets are recognised for tax losses and capital allowances carried forward to the extent that realisation of the related tax benefits through future taxable profits is probable. The Company has NIL unrecognised tax losses (2020: Nil) and unutilised capital allowance of \$585,318 (2020: \$540,003) at the balance sheet date which can be carried forward and used to offset against future taxable income subject to meeting certain statutory requirements by those companies with unrecognised tax losses and capital allowances in their respective countries of incorporation. The tax losses and capital allowance have no expiry date.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 19. Management of financial risk

The Company's activities also expose it to a variety of financial risks, including the effects of changes in debt market prices and foreign currency exchange rates.

#### Financial risk management objectives

The Company is exposed to financial risk through its financial assets, financial liabilities, reinsurance assets and policyholder liabilities. In particular, the key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations arising from claims as they fall due. The most important components of this financial risk are market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Company manages these positions within an investment strategy that has been developed with the following objectives:

- (i) to preserve capital in reasonably liquid investments to pay claims, and
- (ii) to maximise returns to the Company's income needs.

The Company's investment strategy is integrated with the management of the financial risks associated with the Company's other financial assets and liabilities not directly associated with insurance and investment liabilities.

#### (a) Market risk

#### (i) Currency risk

The Company maintains cash and deposits mainly in Singapore Dollars ("SGD") which is consistent with its functional currency. The foreign exchange exposure arose mainly from exchange rate movements of the United States Dollar ("USD") against the SGD. However, the Company manages its exposure to USD by applying fair value hedge in USD.

The table below summarises the Company's exposures to foreign currency exchange rate movements as at 31 December 2021. The Company's assets and liabilities at carrying amounts are included in the table, categorised by currency at their carrying amount. All the amounts are presented in Singapore Dollars.

Net financial assets	253,634	52,475	306,109

### (ii) Interest rate risk

The Company's exposure to changes in interest rates relate primarily to interest-earning financial assets. Interest rate risk is managed by the Company on an on-going basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates. However, the Company does not hedge against such exposures.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 19. Management of financial risk (continued)

- (a) Market risk (continued)
- (ii) Interest rate risk (continued)

Summary quantitative data of the Company's interest-bearing financial instruments can be found in below.

#### Effective interest rates and maturity analysis

#### Non-derivative financial assets

In respect of interest-earning financial assets, the following table indicates their weighted average effective interest rates per annum at the end of the reporting period drawn up based on the undiscounted contractual maturities of the financial assets that will be earned on those assets except where the Company anticipates that the cash flow will occur in a different period.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 19. Management of financial risk (continued)

#### (b) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure and the credit rating to its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The carrying amount of reinsurers' share of insurance contract provisions, insurance and other receivables, financial assets at fair value through profit or loss, and cash and cash equivalents represent the Company's maximum exposure to credit risk.

As at 31 December 2021, the Company had exposure to concentration of credit risk arising from one trade debtor (2020: one trade debtor) that represented 18% (2020: 16%) of trade receivables at balance sheet date.

At the end of the reporting period, there is no other significant concentration of credit risk and exposures are well spread. The Company's exposure to credit risk relating to its financial and insurance assets are summarised below:

2021	<u>AAA</u> S\$'000	A- to AA+ S\$'000	BB to BBB+ S\$'000	Not Rated S\$'000	<u>Total</u> S\$'000

### (c) <u>Liquidity risk</u>

An important aspect of the Company's management of financial and insurance assets and liabilities is to ensure that cash is available to settle liabilities as they fall due. The Company maintains sufficient cash and liquid deposits, and internally generated cash flows to finance its activities. In normal circumstances, the majority of claims are settled with the cash at bank balances and bank deposits available.

### **NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 December 2021

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 19. Management of financial risk (continued)

# (d) Capital risk

The Company's policy is to maintain an economic capital base adequate to support its underwriting strategy within its risk appetite. The Company is also required to comply with the regulatory capital requirements prescribed by the MAS. Under the Risk-based Capital 2 Framework (RBC 2) as set out in MAS Notice 133, insurance companies are required to maintain minimum admissible surplus capital of 100% of the Prescribed Capital Requirement (PCR). The MAS may prescribe additional capital add-ons for each insurer, or for the industry as a whole. The Company has surplus admissible capital in excess of the minimum requirement and all applicable capital add-ons. Capital adequacy ratio as of 2021 is 232% (2020: 264%) for the entity.

# (e) Fair value measurements

The table below presents assets and liabilities measured and carried at fair value and classified by level of the following fair value measurement hierarchy:

	Level 1	Level 2	Level 3	Total
	S\$'000	S\$'000	S\$'000	S\$'000

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 19. Management of financial risk (continued)

#### (e) <u>Fair value measurements</u> (continued)

The Company's assets measured at fair value are its fair value through profit or loss financial assets, which are classified by level of the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The fair value of financial instruments traded in active markets (at fair value through profit or loss) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Company is the current bid price.

The carrying value less impairment provision of current trade and other receivables approximate their fair values. The fair value of financial liabilities approximates their carrying amount.

#### (f) Financial instruments by category

The carrying amounts of financial assets measured at fair value through profit or loss are disclosed on the face of the balance sheet and in Note 11 to the financial statements respectively.

The aggregate carrying amounts of financial assets, are as follows:

	2021 S\$'000	2020 S\$'000
Cash and cash equivalents Trade and other receivables (excluding	35,040	13,615
prepayments) Financial assets, at fair value through profit or	108,956	105,660
loss Derivative financial instruments	252,404 400	269,824 778

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 20. Immediate and ultimate holding corporation

The Company's immediate holding corporation is QBE Asia Pacific Holdings Limited ("QAPH"), incorporated in Hong Kong. The ultimate holding corporation is QBE Insurance Group Limited, incorporated in Australia.

# 21. Related party transactions

In addition to the information disclosed elsewhere in the financial statements, the following significant transactions took place between the Company and related parties at terms agreed between the parties:

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 23. New or revised accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2021 reporting periods and have not been early adopted by the Company. These standards are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

Effective for annual periods beginning on or after 1 January 2022:

- Amendments to FRS 16: Property, Plant and Equipment (Proceeds before Intended Use)
- Amendments to FRS 37: Provisions, Contingent Liabilities and Contingent Assets (Onerous Contracts – Cost of Fulfilling a Contract)

Effective for annual periods beginning on or after 1 January 2023:

- FRS 109 Financial Instruments (deferral option)
- FRS 117 Insurance Contracts
- Amendments to FRS 1: Presentation of Financial Statements (Classification of Liabilities as Current or Non-current)
- Amendments to FRS 1: Presentation of Financial Statements and FRS Practice Statement 2: (Disclosure of Accounting Policies)
- Amendments to FRS 8: Accounting Policies, Changes in Accounting Estimates and Errors (Definition of Accounting Estimates)
- Amendments to FRS 12: Deferred Tax related to Assets and Liabilities arising from a Single Transaction
- Amendments to FRS 17: Insurance Contracts (Initial Application of FRS 117 and FRS 109 – Comparative Information)

# 24. Disclosure on the temporary exemption from FRS 109

According to FRS 104 Insurance Contracts, the Company made the assessment based on the financial position as of 31 December 2015, concluding that the Company met the criteria as set out for the temporary exemption under FRS 109. There had been no significant change in the activities of the Company since then that requires reassessment. Therefore, the Company's activities are predominantly connected with insurance, meeting the criteria to apply temporary exemption from FRS 109.

(a) Temporary exemption on adoption of FRS 109 Financial Instruments

FRS 109 retains the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through Other Comprehensive Income ("FVOCI") and fair value through Profit or Loss ("FVTPL"). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be

#### NOTES TO THE FINANCIAL STATEMENTS

# 24. Disclosure on the temporary exemption from FRS 109 (continued)

(a) Temporary exemption on adoption of FRS 109 Financial Instruments (continued)

measured at FVTPL with an irrevocable option at inception to present changes in fair value in Other Comprehensive Income ("OCI"). Gains and losses realised on the sale of such financial assets at FVOCI are not transferred to profit or loss on sale but reclassified from the FVOCI reserve to retained earnings.

FRS 109 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management uses for risk management purposes.

There is also now a new expected credit loss impairment model that replaces the incurred loss impairment model used in FRS 39. It applies to financial assets classified at amortised cost, debt instruments measured at FVOCI, contract assets under FRS 115 Revenue from contracts with customers, lease receivables, loan commitments and certain financial guarantee contracts.

The new standard also introduces expanded disclosure requirements and changes in presentation.

The standard is mandatorily effective for financial periods beginning on or after 1 January 2019 (except for prepayment features with negative compensation and modifications or exchange of financial liabilities that do not result in derecognition which will become effective for financial periods beginning on or after 1 January 2021), but the Company qualifies for a temporary exemption as explained in Note 24(b). Additional disclosures required by FRS 109 is made in Note 24(c) and 24(d).

(b) Applying FRS 109 Financial Instruments with FRS 104 Insurance Contracts

FRS104 introduces two approaches: an overlay approach and a deferral approach:

- (1) gives all companies that issue insurance contracts the option to recognise in other comprehensive income, rather than profit or loss, the volatility that could arise when FRS 109 is applied before the new insurance contract is issued (the "Overlay Approach"); and
- (2) gives companies whose activities are predominantly connected with insurance an optional temporary exemption from applying FRS 109 until 2021 (the "Deferral Approach").

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

#### 24. Disclosure on the temporary exemption from FRS 109 (continued)

(b) Applying FRS 109 Financial Instruments with FRS 104 Insurance Contracts (continued)

In determining the appropriateness of the Company's eligibility in applying the exemption, management have reviewed the conditions prescribed by the FRS 104 to ascertain if the Company has met the eligibility criteria set forth.

As at 31 December 2015, the carrying amount of the Company's insurance liabilities within the scope of FRS 104 exceed 80% of the carrying amount of the Company's total liabilities; and the Company does not engage in any significant activity unconnected with insurance, on the basis that its business is almost exclusively in the nature of issuing insurance contracts, purchasing reinsurance protection and deriving a return from the investment of insurance premiums. As such, the Company has met the criteria as set out for the temporary exemption under FRS 109.

The Company has decided that it will defer the implementation of FRS 109 till the new insurance accounting standard is effective and it is able to perform a comprehensive assessment of both standards together.

On 17 March 2020, IASB has approved to defer the new insurance standard to financial period beginning on or after 1 January 2023. The entities that defer the application of FRS 109 will continue to apply the existing financial instruments standard – FRS 39.

(c) The table below presents the fair value of the following groups of financial assets under FRS 109 as at financial year end and fair value changes during the year:

				Fair value	e changes to	r the year
	Fair value a	Fair value as at 31 December 2021			31 December	er 2021

Assets	Criteria	criteria	Total	Criteria	criteria	Total
	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000
Cash and Cash equivalents Trade and other receivables	13,615	-	13,615	-	-	-
(excluding prepayment)	105,660	-	105,660	_	-	-
Financial assets	269,824	-	269,824	1,203	-	1,203
Derivative financial						
instruments	-	778	778	-	-	-
Total	389,099	778	389,877	1,203	-	1,203

(d) The table below presents the credit risk exposure for aforementioned financial assets with contractual terms that give rise on SPPI:

	Carrying amount as 31 December <u>2021</u> \$'000	Fair value as at 31 December <u>2021</u> \$'000
AAA A- to AA+	191,620	191,620
BB to BBB+	110,968 10,205	110,968 10,205
Not rated	84,007	84,007
	396,800	396,800
	Carrying amount as 31 December 2020 \$'000	
AAA A- to AA+ BB to BBB+ Not rated	as 31 December 2020	31 December 2020

For financial assets measured at amortised cost, carrying amount represents amount before adjusting impairment allowance.

#### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2021

# 25. Reduction of share capital

Following formal approval from the MAS in early March 2020, 21,578,960 shares were re-purchased by the Company on 23 March 2020, and the consequential reduction in paid up capital has been notified to the Accounting and Corporate Regulatory Authority ("ACRA").

The Company remains strongly capitalised and in the range of its target capital levels subsequent to the execution of the share buy-back.

### 26. Authorisation of financial statements

The financial statements for the financial year ended 31 December 2021 were authorised for issue by the Board of Directors of the Company on 29 March 2022.
