

Global Risk Solutions Overview

As a top global insurer, QBE offers a consistent approach to risk prevention on a local, national and global level. We pride ourselves on providing global resources with a consistent quality assurance process to deliver world-class service to our customers.

QBE's Global Risk Solutions teams are industry leading experts in risk and delivering loss prevention and loss protection services. Our focused commitment to service and technical acumen help customers identify, evaluate and reduce their potential for losses and business risk. By getting to know our customers, their business operations, priorities and concerns, we deliver the best possible outcomes.

Whether it is contractual liability, risk transfer, integrating the latest fire suppression technology in a new facility, helping supervisors be more effective in creating a strong safety culture or identifying business interruption vulnerabilities, we can help. Our team will help reduce, avoid or eliminate risk of financial loss.

QBE Risk Services:

- Provides the power of a global organization with a strong national and local presence
- Can assist with lowering your overall cost of risk because we are experts in industry loss control best practices
- Helps identify and understand the risk and exposures that can impact your business operations, facilities and personnel
- Knowledgeable and current on National Fire Protection Association codes, federal and state OSHA and DOT regulations
- Manages risk for accounts for commercial lines, program business, agribusiness, specialty lines and large, national risk management operations
